

Excel, Linen, Modal, and Cationic Viscose Yarns & Blends

At **Kiran Spinning Mill**, we offer a wide range of **premium specialty yarns**, including **Cotton/Excel blends, 100% Excel, Linen, Modal, and Cationic Viscose Siro Compact Yarns**, available in both **domestically produced** and **internationally sourced** options. These yarns are engineered for performance, comfort, sustainability, and aesthetic excellence.

◆ Cotton/Excel & 100% Excel Yarns

Excel (a Lyocell fiber by Aditya Birla) offers superior softness, moisture management, and luster. Whether in pure form or blended with cotton, these yarns are ideal for eco-conscious fashion and premium garments.

◆ Linen Blended Yarns

A timeless fiber known for its breathability and texture, linen blends deliver natural comfort and elegance. We offer linen blends with cotton, polyester, or modal, sourced from trusted global suppliers.

◆ Modal Yarns

Modal provides exceptional softness, drape, and color brilliance. Available in 100% and blended formats, our Modal yarns are perfect for fashionwear, intimate wear, and home textiles.

◆ Cationic Viscose Siro Compact Yarns & Blends

Cationic dyeable viscose enables brilliant dyeing and heather effects in blends. When spun in siro compact form, it results in superior yarn strength, low hairiness, and enhanced uniformity – ideal for high-end woven and knitted applications.

"Our product range includes premium intermingled yarns, produced with precision to meet the requirements of apparel, upholstery, and industrial textiles."

Applications:

- Premium shirting & suiting
- Women's fashion & ethnic wear
- Home furnishing fabrics
- Knits and woven apparel
- Athleisure and casualwear

With the manufacturing excellence of **Kiran Spinning Mill** and the sourcing strength of **Shree Ganesh Textiles**, we ensure timely delivery, consistent quality, and competitive pricing for both **domestic and export markets**.
